Dear Mr Gent,

**Re: Reference Request – The Grand Pier Weston-Super-Mare**

Responding to a request from Peter Walker, It gives me pleasure to provide the following:

I can confirm that CASS are currently carrying out an access scaffolding package at the above contract in the region of £1m in value.

We have found CASS to be a well organised and resourced company with a professional approach to servicing a very challenging project.

The challenges have ranged from designing and installing Europe's largest suspended scaffold to operating safely in the severest of weather conditions at high level, above the sea, throughout the worst winter recorded in 30 years.

We have depended unfailingly upon CASS to sustain the achievement of an ambitious build programme, working with all contractors to achieve a common goal.

I have found them to be indispensable to the team rebuilding the pier and will certainly be placing them at the top of my tender list for the next project.

Yours Sincerely  

**Richard Sutton**
